## Instructions

If property is disposed of or ceases to be in qualified use prior to the end of its useful life, the difference between the Brownfields Credit, Historic Rehabilitation Credit and Low-Income Housing Credit taken and the credit allowed for actual use must be added back in the excise calculation. The recapture amount is additional tax in the year the property is disposed of. The amount of the credit allowed for actual use equals the amount of the original credit multiplied by the months of actual use divided by the total months of useful life.

If the taxpayer's records show that a portion or all of the original credit was never used to offset tax, the recapture tax may be reduced by the unused amount. To substantiate any amount in line 9, taxpayers should complete the Schedule H-2 Worksheet (Recapture Offset Worksheet) or use their own schedule, provided it performs the same calculations as the worksheet. The worksheet is available by visiting the DOR's website at [www.mass.gov/dor](http://www.mass.gov/dor).

For further information refer to DOR Directive 89-7.
